

Capability Statement

Melanie is a contemporary and collaborative consultant, taking a boutique approach to healthcare transformation in the public health and medical cannabis sectors, servicing international markets with significant experience and interest in Australia, and in the United States.

Melanie is an enthusiastic professional driven by a vision of high quality, equitable healthcare. She believes in people and their communities, and has dedicated her career to promoting person-centred, respectful, and culturally responsive care.

A Bachelor of Psychological Science, she is an experienced project manager, national healthcare operations leader, an independent expert to the Australian Medical Association (AMA), and graduate of the Harvard Medical School Digital Transformation Program.

A global thinker and passionate storyteller, she seeks the knowledge of those who came before her and applies it through evidence-based frameworks to drive quality improvement, and the delivery of innovative and emerging models of care. The intersection between healthcare and the cannabis industries is a special passion and is the focus of much of her work.

Melanie Wentzel Consulting provides services which are designed to be fit for client need and can range from one-hour to one-year in duration, on a casual or ongoing basis.

Typical engagements include:

- three-hour advisory sessions
- half and full day workshops
- six-week business analysis and reporting projects
- project management on retainer
- communications content planning, writing and activations
- education suite development & delivery (multi-modal)
- limited series of co-design sessions to prepare products and brands for market
- workforce development series (education delivery in person and online), and
- professional development coaching series for high-performing teams.

Melanie has spent a decade curating a global community of high-performing peers and partners who provide support and add value to her projects. This means you have access to an incredible, additional pool of knowledge and experience which can be enlisted as required, as a part of the Melanie Wentzel Consulting client experience.

Previous Work

Melanie has worked extensively with the Australian Department of Health, State Governments, Medical Colleges, Australian Medical Association (AMA), Primary Health Networks, Peak Bodies, health and technology organisations across the Australian, American, and British healthcare landscapes delivering impactful and transformative programs for patients, communities, clinicians and the global healthcare system.

Key Knowledge Areas

“

Melanie is a value creator. Underpinned by a proven approach and clear set of values, Melanie is in the rarified space of being able to move from defining strategy to project management to high-energy execution. Add her attention to detail and Melanie becomes a positive force in any project.

Christopher Elliott
Director of Clinics, Cannim

“

I have worked with Melanie for much of the last decade. I have found her to be high energy, willing to consult, very organised, passionate about high quality health care and the needs of disadvantaged groups and complex patients. She brings a patient perspective and desire to systematise care to everything she does. Mel is good at learning, presenting, and organising to deliver exceptional outcomes with every project she takes on.

Tracey Johnson
Chief Executive Officer, Inala Primary Care

“

Melanie is extremely organised and very hard-working. She carries out her work with a great attitude alongside a strong capability to execute on the needs of those she is working with. I would strongly recommend working with her if you are looking for well strategised success!

Isaac Balbin
Founder & Chairman, Cannabis.org.au

“

Working with Mel has been an absolute pleasure. Her ethical approach, innovative solutions, and passion for accessible healthcare make her a standout. Anyone would be fortunate to have her expertise and collaborative spirit guiding their projects.

Rhea Hill
Co-Founder, Hound Haus Tattoo Co.

Testimonials

“

Mel immediately resonated with our vision and identified not only the potential, but exactly what was needed and how to achieve the launch of our brand and first product. She brought a wealth of knowledge, ideas, and networks, and has been invaluable to Patch Therapeutics. We consider Mel a part of the Patch family.

Jarod Thompson
Co-Founder, Patch Therapeutics

“

Mel is great to work with; professional, personable, and always available to bounce ideas off. She is knowledgeable and well connected and provides high quality deliverables which are informative and practical. I've recommended Mel to clients previously and would do so again without hesitation.

Macdarragh O'Neill
Head of Production & Director, Breathe Life Sciences

“

Not only does Melanie truly walk the walk and believe in the work, but she also takes the time to hear your story and takes you on the journey – everyone is invited to her table, and I love that about her.

Jeremy Archer
Award Winning Diversity and Inclusion Leader
